

THE CELLFINA[®] SYSTEM RECOGNIZED BY REALSELF AS MOST WORTH IT AWARD WINNER

RALEIGH, N.C. – June 5, 2017 – BUSINESS WIRE – Merz Aesthetics, a division of Merz North America, announced today that the Cellfina[®] System has been named a 2016 RealSelf Most Worth It award winner in the “Cellulite Treatment” category.

More than 9 million people visit RealSelf each month to find out which providers and aesthetic treatments live up to their promise of delivering results, including whether the treatment was “worth it.” The Cellfina[®] System is among 12 nonsurgical treatments recognized by RealSelf as leaders in their categories, achieving the highest consumer satisfaction rates¹ in 2016.

“To be awarded as the Most Worth It cellulite treatment in the first RealSelf Most Worth It awards is a true testament of the Cellfina[®] System’s proof of performance,” said Patrick Urban, Chief Commercial Officer of Merz North America. “This innovative technology continues to be recognized for delivering proven results and garnering a high rate of patient satisfaction.”

The Cellfina[®] System is the only FDA-cleared, minimally invasive procedure clinically proven to improve the appearance of cellulite with results that last at least three years – the longest duration cleared by the FDA. The Cellfina[®] System combines highly advanced, proprietary technology with a well-established procedure called subcision, to treat the structural cause of cellulite. According to market research, 78 percent of U.S. women have cellulite that would qualify as treatable with the Cellfina[®] System². The Cellfina[®] System is currently available

¹Methodology: RealSelf Most Worth It Award winners are selected based on the overall percentage of consumers that rated the treatment as “Worth It” (in its respective category) over the last year. A confidence interval is applied to balance the proportion of positive ratings relative to the number of reviews that a treatment received.

² Survey of 1,045 women, conducted by Listen Research for Merz North America
